

## Solution Requirement Analysis - Cosmetic Insights Web App

### Functional Requirements:

- Embed Tableau dashboards (market, customer, product insights)
- Simple, responsive web interface using Flask and HTML/CSS
- Feedback form with POST request handling

### Non-Functional Requirements:

- Load performance under 3 seconds
- Cross-browser compatibility
- Mobile responsive layout
- Secure and spam-resistant form

### Scalability:

- Can be extended with more dashboards or analytics tools
- Future migration to containerized or cloud-based hosting

### Maintainability:

- Clear folder and code structure (Flask conventions)
- Easy update of dashboards

### Usability:

- Clean navigation and design
- Intuitive dashboard titles and sections
